BOOK 01

PROGETTATO E PRODOTTO INTERAMENTE IN ITALIA
ENTIRELY MADE IN ITALY

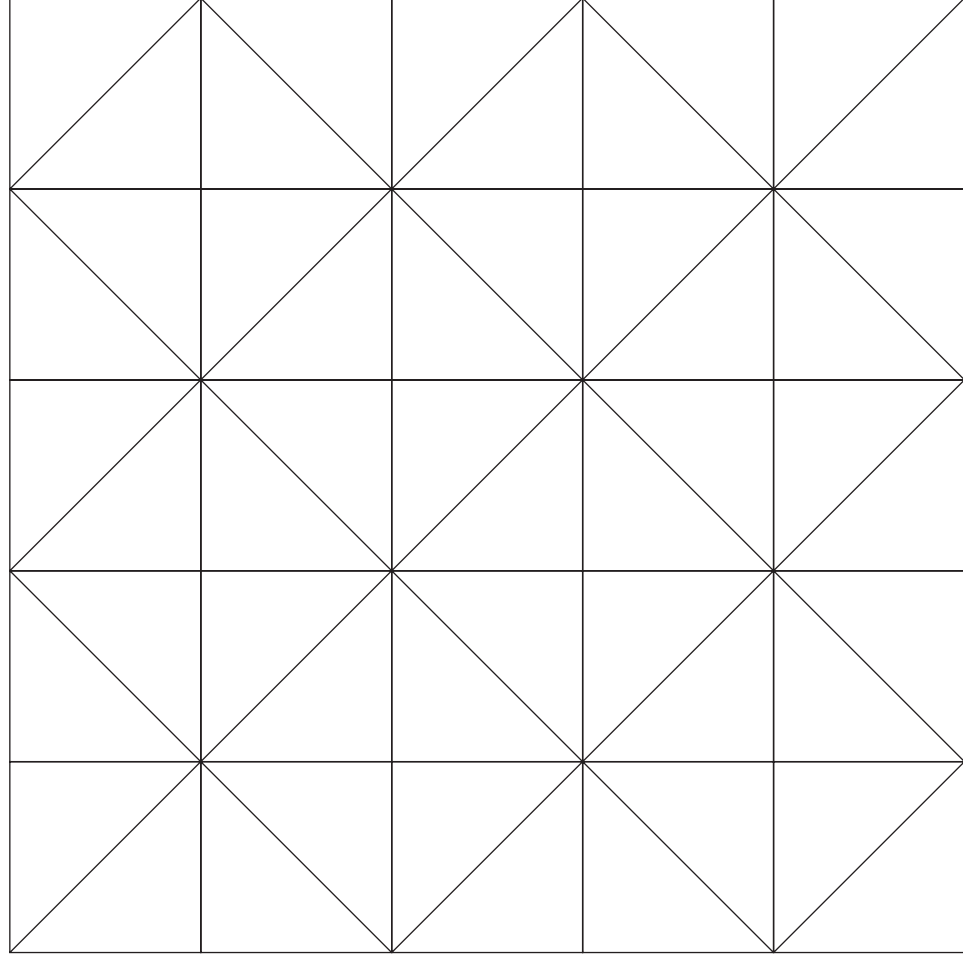

A modern interior space featuring a black marble reception desk with white and gold veining. On the desk sits a gold dome lamp and several geometric wooden and metal objects. A complex geometric light fixture hangs from the ceiling. The background is a light-colored wall, and a large window on the right shows greenery outside.

MISSION

Diceramica è un marchio che progetta e realizza prodotti per l'arredamento e per la decorazione d'interni.

Dal resort all'albergo diffuso, dal city hotel al ristorante, ci rivolgiamo a un pubblico di progettisti, rivenditori, contractor e a tutti coloro che desiderano realizzare un progetto di grande qualità e personalizzazione. Oltre alle nostre collezioni realizziamo prodotti bespoke per soddisfare tutte le esigenze legate alla progettazione. Tutta la filiera progettuale e produttiva è sviluppata e realizzata interamente in Italia.

Diceramica is a brand that designs and realizes products for furniture and interior design. From resorts to "Alberghi Diffusi", from city hotels to restaurants, we work with designers, retailers, contractors and all those who wish to realize a project of great quality and customisation. In addition to our collections, we manufacture bespoke products to meet all production requirements. The entire design and production chain is entirely made in Italy.

CURA DEI DETTAGLI

ATTENTION TO DETAILS

Dalla piccola alla grande scala ogni singolo dettaglio con la cura sartoriale del Made in Italy. Dalla progettazione al disegno tecnico, realizziamo arredi e manufatti su misura utilizzando lastre in gres porcellanato di ultima generazione con alta qualità dei materiali e dei processi produttivi. Poniamo molta attenzione alle prestazioni dei materiali utilizzati e alla qualità estetica e tecnica delle nostre realizzazioni che si distinguono per innovazione e cura dei dettagli.

From small to large scale every single detail with the tailoring care of Made in Italy. From design to technical drawing, we create custom-made furniture and items using the latest generation of porcelain stoneware slabs with high quality materials and production processes. We pay close attention to the performance of the materials used and the aesthetic and technical quality of our creations, which stand out for innovation and attention to details.

TABLES

I tavoli di varie forme e dimensioni con strutture in metallo e legno, possono essere realizzati con molteplici texture ed effetti materici: marmi, pietre, cementi e tinte unite. Realizziamo i nostri top accoppiando le lastre in grès porcellanato di spessore 6 mm con vetro temperato per garantire la migliore qualità estetica. Con il taglio del vetro a 45 gradi la percezione del bordo risulta sottile e priva di imperfezioni. L'accoppiamento delle 2 materie avviene sottovuoto a caldo. Tra i plus tecnici non meno importante è il dato della sicurezza, in caso di rottura accidentale il top si frattura ma non si scompone. Stabilità e inalterabilità sono garantite nel tempo. Design, cura del dettaglio e qualità costruttiva sono i valori del marchio Diceramica.

Tables of different shapes and sizes with metal and wooden structures can be made with multiple textures and material effects: marble, stone, concrete and solid colors. We make our tops by combining 6 mm thick porcelain stoneware slabs with tempered glass to guarantee the best aesthetic quality. By cutting glass at 45 degrees, the edge is thin and without imperfections. The combination of 2 materials is done in a hot vacuum. Among technical pluses is the safety feature: in case of accidental breakage, top fractures but does not shatter. Stability and inalterability are guaranteed over time. Design, attention to detail and construction quality are the values of Diceramica brand.

BATHROOM

Tecnologia costruttiva, stile e qualità delle finiture caratterizzano la proposta Bathroom. I lavabi sono realizzati con lastre in gres porcellanato di ultima generazione e sono disponibili in formati e dimensioni differenti. L'alta qualità dei materiali, dei processi produttivi e la possibilità di personalizzare il progetto, accedendo al più grande e innovativo bacino di superfici in grande formato e minimo spessore, garantiscono grande libertà di scelta e di realizzazione. La proposta si completa con elementi coordinati: contenitori, mensole e supporti in metallo, presenti nella sezione & MORE.

Construction technology, style and quality finishes define the Bathroom proposal. Sinks are made from the latest generation of porcelain stoneware slabs and are available in different sizes and dimensions. High quality of materials, production processes and project customisation, providing the largest and most innovative selection of surfaces in large sizes and minimum thicknesses, guarantee great freedom of choice and realization. The proposal is completed with coordinated elements: containers, shelves and metal supports, present in & MORE section.

SURFACES

Lavabi e Top possono essere realizzati in tutte le superfici. Oltre alla selezione da noi proposta possiamo accedere al più grande e innovativo bacino di superfici in grande formato e minimo spessore. Tecnologia costruttiva, stile e qualità delle finiture caratterizzano la gamma di prodotti selezionati da Diceramica.

Washbasin and Table top can be realized in all finishes. In addition to our extensive line-up of ready-made products, we can also access an enormous selection of unique and custom surfaces in large format and minimum thickness. Innovation, style and superior quality are what distinguish the surfaces selected by Diceramica.
